

Publication Center v0: Editorial Charter & CQE Frame

Mission

Publish only legality-proven artifacts. Legality = Type-II Con-A membership + palindromic witnesses within bounds + zero code syndrome, governed by the Corridor Twin (mods 2/3/5/7/11/13) and dual-witness rule (DFT/WHT or equivalent).

Outputs are deterministic, residues-replayable, and auditable. Each article ships with: (i) GAE provenance, (ii) CEC execution contract, (iii) residues-only replay kit.

Frame Template (NGD→Frame)

Numbers in the submission compile the frame: thresholds τ , scale $S \approx 4^k$, modulus set M (e.g., $\{2, 4, 8, 32, 13\}$), face priorities, witness suite. Pose is gauge; replay does not require pose.

Acceptance Policy (verdicts)

REST (publish), ACTION (reduce and re-verify), REJECT (out of jurisdiction). If real-world pins are missing, issue NTER and hold as PROVISIONAL.
