# Joker — The Eye to Outside

*Local placeholder • Global structure call • OMPS binding*

## Local / Global Rules

- Local: may be played to keep ledger open; asserts external structure; must later be paired.
- Global: demands mirrored Joker from another set; OMPS centroid binding; closes both ledgers.
- Trigger: rings $r \equiv 0 \pmod 8$: 8, 16, 24.

## Mirror Law

Red Joker binds Black Joker of the same order; Black binds Red. Single-use per deck-color; idempotent glue.
